Why use AmazonSmile

Sure, I agree that 50 cents on a \$100 purchase might not seem like a huge donation. And it's not a substitute for the generous contributions you regularly make to the International 22q11.2 Foundation through our yearly campaigns. But as any frequent Amazon shopper knows, your purchases **ADD** up.

What's the news here?

Previously, AmazonSmile required the user to shop using their browser – either on a desktop computer or through the mobile browser on a smartphone.

That meant that when you shopped in the official Amazon app, you weren't contributing to your chosen charity – even if you had already activated AmazonSmile. By adding AmazonSmile to its official app, Amazon is making the program available anytime, anywhere.
